ECU

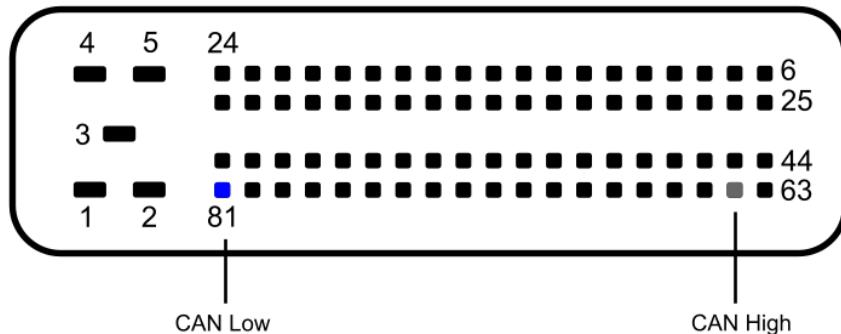

This user guide explains how to connect Abit ECU to AiM devices. Supported model is:

- Abit Korvet M11

1

Wiring connection

Abit Korvet M11 ECU features a CAN communication protocol on the 63 front connector. Here below are connector pinout and connection table.

Pin	function	AiM cable
62	CAN High	CAN+
81	CAN Low	CAN-

3

AiM device configuration

Before connecting the ECU to AiM device set it up using AiM Race Studio software. The parameters to select in the device configuration are:

- ECU manufacturer "Abit"
- ECU Model "Korvet_M11"

4
