

Compatibility

AiM GPS compatibility

Question:

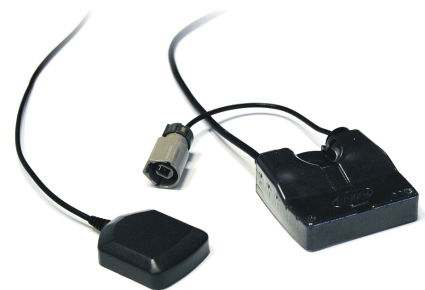

Which GPS Module can I connect to my device to sample lap/split times and start finish line coordinates?

Answer:

AiM designed and developed different GPS Modules, compatible with the various generations of AiM devices:

GPS03 – supported by:

- MXL Strada
- MXL Pista
- MXL Pro05
- EVO3 Pista
- EVO3 Pro

GPS05 – supported by:

- MXL2
- MXS/MXS 1.2
- MXS Strada/MXS Strada 1.2
- MXG/MXG 1.2
- MXG 1.2 Strada
- MXP/MXP Strada
- MXsl
- EVO3 Pro/Pista
- EVO4S
- EVO5
- MXL Strada/Pista/Pro05
- ECU Bridge
- RPM Bridge

Compatibility

GPS05B – supported by:

- SmartyCam

GPS08 – supported by:

- all AiM loggers and display
- SmartyCam GP HD Rev. 2.2

In addition to GPS satellites detection, it even detects the Glonass (Global Navigation Satellite System) signal, with an average number of 20 satellites contemporarily.

GPS08B – supported by:

- SmartyCam GP
- SmartyCam GP HD

GPS08R – for the installation on the vehicle roof and supported by all AiM loggers and display
